

# Avery Dennison™ Horticultural Fastening System

## *Meet the challenges of Nursery Product Identification!*

Don't lose plastic care markers, string tags and wires can be tampered with or paper tags can fall out—this is the system for you!

**The Tag Fast™ Attacher** redesigned with modifications is ideal to meet the challenging tagging needs of the Horticultural Industry.

- Application tool that measures up to high requirements—made with materials that resist corrosion
- Flush port drain holes allow for repeated and easy cleanings
- Super Heavy Duty fasteners are made of strongest grade 6/6 nylon available—tensile strength up to 20 lbs.
- Needles designed for Super Heavy Duty Fasteners
