Enhance Productivity

Enhance your system's productivity with specially designed accessories and leading edge companion products that seamlessly integrate with your Monarch® 9800® Series printers.

Monarch® 926™ Knife. For use with the Monarch 9855 Tabletop Bar Code Printer.

Handles low to mid-volume tag cutting of up to 10 mil tags at up to 6 ips. This knife is capable of cutting approximately 1 million tags before a replacement knife is required.

Monarch® 927™ Hopper. For use with the Monarch 9855

Tabletop Bar Code Printer and Monarch 926 Knife. Catches small (75 max.) batches of tags. Eases cut tag handling. Not designed for use with batch separators. Does not stack tags in order.

Monarch® 928™ Stacker. Stacks up to 6 ips with a maximum tag length of 3.66 inches. The Monarch 928 Stacker only works with the Monarch 926 Knife. It cannot be used with the Monarch® 938™ Verifier.

Monarch® 932™ Stacker. Used exclusively with the Monarch® 9860™ Tabletop

Ticketing System for a complete high tag printing solution. It stacks up to 8 ips for high productivity and has a 2,000 tag capacity for fewer "stops" due to "stacker full" condition. Double high batch separators help you keep batches straight. For a complete system, add the 938 verifier.

Monarch® 935™ Rewinder.

Designed to take-up an entire roll of labels. Coreless operation available. Accommodates supply widths of up to 4.125". With its small footprint, you have a fast, flexible, easy-to-use solution. Designed for use with any tabletop printer.

Monarch® 9800® Series Companion Products

Monarch®
Products and Services

Monarch® 938™ Verifier. Gives you peace-of-mind performance with the ability to back feed and overprint bad tags or labels to ensure unscannable

tags and labels will not be used. Tags and labels can be verified at the top printer speed, so productivity is high. This verifier is an option for the Monarch 9855 and Monarch 9860 printers.

Monarch® 939™ Keyboard.

Makes off-line data entry a breeze!

Designed for the retail supply chain customers' need to enter both

alpha and numeric data, the Monarch 939 Keyboard features a full QWERTY layout with separate calculator numeric keys. The keyboard also features a 2-line x 40 character backlit display for easy prompting and data entry. The Monarch 939 Keyboard comes standard with the Monarch 9860 Tabletop Ticketing System and as an option for the Monarch 9855 tabletop printer.

The 939i Intelligent Keyboard is also available. Use it for data manipulation, data entry, and when attached to a scanner, data collection.

Cutter 2000 (not pictured).

Monarch 9854 medium duty tag cutter bolts on the exterior of the printer. Cutter is also available for the Monarch 9864 printer.

Mini PS2 Keyboard (not pictured). English QWERTY keyboard with standard PS2 connector allows operator input and menu navigation for both the 9854 and 9864 printers.

Option Compatibility Chart

	9825	9854	9855	9860	9864
926 Knife	No	No	Yes	Heavy Duty Knife Standard	No
