

Experience & Quality

Avery Dennison® Monarch® supplies satisfy some of the most demanding customers in the world....major retailers! Our customers include over 90 of the top 100 U.S. retailers.

At our facility in Miamisburg, Ohio we process over 4 billion linear inches of paper per year. Since we convert the paper and manufacture the supplies in high volume, you save money!

Monarch Supplies Solutions are available for all your printing needs regardless of printer manufacturer.

With Avery Dennison, you aren't just buying a label, you get our Experience and Quality with every order!

The Avery Dennison Quality Difference

Our consistently high quality is evidenced by:

- ISO 9001 certified.
- Industry recognized, award winning, continuous improvement program.

- World class Oracle materials management system.
- Warranty returns of less than 0.2% of sales.
- "Best Plant Award" from Industry Week Magazine.

Pre-Print and Converting Capabilities

Our Miamisburg facility alone boasts 16 printing presses each with 6 color capability, 4 die cutters, 11 slitters, 3 fanfold presses, each with 5 color capabilities and 2 linerless presses with 4 color capability.

We've also installed butt splicing and turret rewind technology. This ensures you will experience reliable delivery, quality and competitive pricing.

Supplies for Your Toughest Requirements

Whether you need scuff-resistant carton shipping labels, custom hang-tags or shelf labels, compliance or long-lasting labels for harsh conditions, work-in-process or jewelry labels, routing or grocery labels, low-cost or premium supplies, Monarch Supplies Solutions has everything you need to help you run your business more efficiently!

Monarch® Supplies Solutions

Monarch®
Products and Services

Customer-Focused Supply Development

Our research and development team, with over 100 years of combined experience, routinely works with our customers to develop new, cost-efficient and innovative custom solutions.

We've developed more than 24 world class applications for

the retail supply chain, most with multiple solutions. Once an application is developed, it's fully tested in our specially designed, climate-controlled laboratories to

ensure consistent performance in its specific use. Multiple combinations of existing products, adhesives, face, release and die configurations are used to develop the solution that is just right for you.

Don't have a Monarch® printer? We still have the solution for you. Monarch® brand supply products have been qualified on all popular printer models to meet your requirements!

Focus on Responsiveness

Need Supplies Fast? We have:

- Round-the-clock factory operations (3 shifts)

- Over 1000 stocked supply configurations
- Same day shipping for in-stock orders received by 3 p.m.
- Over 9000 press converting tools in inventory
- Rapid custom supply turnaround.

Most label companies simply “convert” jumbo rolls of label material, already laminated with adhesive and liner, purchased from another company. Avery Dennison's laminating operations mean we start with plain paper and build the entire “label sandwich” ourselves. That gives us much greater flexibility to meet your special configuration, custom coating, or super fast turnaround needs

Leader in Linerless Technology

Avery Dennison takes pride in leading the development of linerless label capabilities. Five adhesives are available for linerless solutions, including pattern adhesive combinations.

In addition, Avery Dennison offers a patented matte finish silicone formulation to ensure excellent scanability, multiple pre-print capabilities and in-line converting processes.

Applications at a Glance

- Permanent Labels/Asset Tracking
- Cold Environments, Freezers
- Hot Environments
- Jewelry
- Nursery/Lumber
- Tires
- Markdowns
- Security Labeling
- Item Marking
- RFID
- Shipping/Packing Slips
- Dry Release/Piggybacks
- More!

Supplies Doctors

We want your most challenging thermal label or tag problem!

Just call or e-mail us to set up a consultation with the Supplies Doctors and get a **free diagnosis!**

The Avery Dennison Supplies Doctors have been diagnosing labeling and tagging problems for over 100 years. We work with our customers to develop new, cost-efficient and innovative solutions!

Monarch® Supplies: For smooth and reliable performance, only Monarch supplies are recommended for use with Monarch printers. Our labels scan virtually 100% of the time, cutting wasted rescanning and labeling time.

Monarch® Service: Every Monarch printer is fully supported by Monarch Service, the largest network of experienced, full-time bar code and RFID technicians in the industry.
